INTRODUCTION

Page numbers provided are to the original volume for purchase at www.gonewestpublications.com. This index is intended to help the user determine if his/her ancestors are included in the original volume. Spellings provided in the index, match those found in the newspaper articles, and consequently, may include misspellings or inaccurate surnames. Also, married women were often listed only under the name of their husband (i.e. Mrs. John Jones). Those persons included in articles with only a last name (i.e. widow Jones or Mrs. Jones) are indexed in some cases when it is clear that their inclusion in the article is of genealogical importance.

For a thorough search, it is suggested that ALL names in a family be researched, including siblings, parents, grandparents and deceased relatives. The dates of the newspapers used to create this material do not necessarily parallel the genealogical data found therein. Nostalgia, historical basis in fact, and good storytelling ethic will cause names from the 1820's through the 1870's to come up often in these more recent newspaper accounts.

Happy Searchin'!
